Full Stack Developer

waree.kiattiphan@gmail.com | 064-197-2727 | <https://wareektp.github.io/>

SUMMARY

A Full Stack Developer with hands-on experience building and deploying web applications using React, Node.js and Docker. Delivered real-world projects including an inventory management system and a microservice-based hotel booking system handling concurrent requests. Holds an ITS Cybersecurity certificate and a Computer Engineering degree from KhonKaen University. Proficient in English (TOEIC 835). Passionate about taking software from idea to production while solving real problems alongside a strong team

EDUCATION

Bachelor of Engineering - Computer Engineering | KhonKaen University, KhonKaen
Graduated November 2024

WORK EXPERIENCE

Instructor | Smartbrain Viewmall | Vientiane, Laos

Dec 2025 - Jun 2026

- Taught mental arithmetic and Roblox game development, Supported parent communication and marketing for enrollment growth

Full Stack Developer | Freelance | Roi Et

Dec 2024 - May 2025

- Built a microservice-based hotel booking backend system using Docker, Express.js and PostgreSQL with multi-layer availability checks and ensuring reservation integrity across concurrent requests
- Built an inventory management web application for stock monitoring and control, reducing transportation delays for shop owner

Teaching Assistant | KhonKaen University | KhonKaen

Jun 2024 - Oct 2024

- Supported course instruction in relational databases, SQL, NoSQL, ER modeling and normalization
- Evaluated and graded student assignments

Full Stack Developer Intern | PlaySmart IoT and System | KhonKaen

Apr 2023 - Jun 2023

- Built a web application for remote monitoring and control of IoT devices
 - Developed and tested wireless communication between ESP32 microcontrollers using ESP-NOW protocol
 - Assisted in training participants on IoT system design and installation
-

SKILLS

Programming Languages:

- Python
- HTML / CSS
- TypeScript
- Java
- JavaScript
- Golang

Frameworks:

- React
- Vue.js
- Flask
- Express.js
- GoFiber
- Gin

Databases:

- PostgreSQL
- Firebase
- MySQL
- MongoDB

Tools & Technologies:

- Git
- Postman
- Grafana
- Nginx
- Docker
- Nessus

Others:

- Linux Administration
- Arduino
- Raspberry pi
- Virtualization
- ESP32
- LoRa

Human Languages:

- Thai (Native)
- English - Proficient (TOEIC 835)
- Chinese (Basic)

CERTIFICATIONS

- IT Specialist (ITS) - Cybersecurity
Certiport | 2025

- Security Engineer
DEPA (Digital Economy Promotion Agency) | 2025
